ZEROCART | GetX

An e-commerce application with outfit room and measurement customisation features is an application that allows users to buy clothes online and try them on virtually. Users can use this application on dark and light mode.

Tack stack: Flutter, Dart, Custom action.

LUCKY DRAW | GetX

This application lets you try your luck by selecting and paying for any contest that interests you. When the contest is full, a lucky number is generated by the admin and the winner gets the prize money. You can also view the past and upcoming contests and track your winnings.

LEARN AND ACHIEVE | GetX

- Quiz Engine: Dynamic quizzes with real-time result generation, detailed analysis, and progress tracking.
- E-Commerce Integration: In-app purchase feature for ordering syllabus bundles and study materials.
- Content Management: Organized study material with tagging and filtering for quick access.
- Gamification Elements: Rewards for completing quizzes and progress milestones.
- User-Friendly Dashboard: Displays syllabus, purchased materials, and quiz options for seamless navigation.
